

K-LOVE has been a blessing to me. I have it on the car radio and my radio at work, which is on all day. Since I work in a church it is very important that we have Christian, uplifting music in the waiting area. Having other types of programming would not be conducive to our atmosphere. K-LOVE has a scriptural base for all their programming. There are enough other stations to cover the secular. We need the full-time Christian music. The public needs to be able to listen to a station that gives Godly perspective all the time.
